REFEREED PUBLICATIONS.

1. Young, I.M., Roberts, A.G., Griffiths, B.S. and Caul, S. (1994). Growth of a ciliate protozoan in model ballotini systems of different particle sizes. *Soil Biology and Biochemistry* **26**, 1173-1178.
2. Oparka, K. J., Roberts, A. G., Prior, D. A. M., Chapman, S., Baulcombe, D., and Santa Cruz, S. (1995). Imaging the green fluorescent protein in plants: viruses carry the torch. *Protoplasma* **189**, 133-141.
3. Oparka, K. J., Roberts, A. G., Roberts, I. M., Prior, D. A. M., and Santa Cruz, S. (1996). Viral coat protein is targeted to, but does not gate, plasmodesmata during cell-to-cell movement of potato virus X. *The Plant Journal* **10**, 805-813.
4. Santa Cruz, S., Chapman, S., Roberts, A. G., Roberts, I. M., Prior, D. A. M., and Oparka, K. J. (1996). Assembly and movement of a plant virus carrying a green fluorescent protein overcoat. *Proceedings of the National Academy of Science USA* **93**, 6286-6290.
5. Roberts, A. G., Santa Cruz, S., Roberts, I. M., Prior, D. A. M., Turgeon, R. and Oparka, K. J. (1997). Phloem unloading in sink leaves of *Nicotiana benthamiana*: comparison of a fluorescent solute with a fluorescent virus. *Plant Cell* **9**, 1381-1396.
6. Oparka, K. J., Roberts, A. G., Santa Cruz, S., Boevink, P., Prior, D. A. M. and Smallcombe, A. (1997). Using GFP to study virus invasion and spread in plant tissues. *Nature* **388**, 401-402.
7. Santa Cruz, S., Roberts, A. G., Prior, D. A. M., Chapman, S. and Oparka, K. J. (1998) Cell-to-cell and phloem-mediated transport of potato virus X: the role of virions. *Plant Cell*, **10**, 495-510.
8. Oparka, K. J., Roberts, A. G., Boevink, P., Santa Cruz, S., Roberts, I. M., Pradel, P., Imlau, A., Sauer, N., Kotlizky, G. and Epel, B. (1999). Simple, but not branched, plasmodesmata allow the non-specific trafficking of proteins in developing tobacco leaves. *Cell* **97**, 743-754.
9. Hawes, C., Boevink, P., Roberts, A.G., and Brandizzi, F. (2000). GFP enlightens the study of endomembrane dynamics in plant cells. *Plant BioSystems* **135**, 3-12.
10. Oparka, K. J. and Roberts, A. G. (2001). Plasmodesmata. A not so open-and-shut case. *Plant Physiology* **125**, 123-126.
11. Roberts, I. M., Boevink, P., Roberts, A. G., Sauer, N., Reichel, C. and Oparka, K. J. (2001). Dynamic changes in the frequency and architecture of plasmodesmata during the sink-source transition in tobacco leaves. *Protoplasma* **218**, 31-44.
12. Viola, R., Roberts, A. G., Haupt, S., Gazzani, S., Hancock, R. D., Marmiroli, N., Machray, G. C. and Oparka, K. J. (2001). Tuberization in potato involves a switch from apoplastic to symplastic phloem unloading. *Plant Cell* **13**, 385-398.

13. Brandizzi, F., Snapp, E., Roberts, A.G., Lippincott-Schwartz, J. and Hawes, C. (2002). Membrane protein transport between the ER and Golgi in tobacco leaves is energy dependent but cytoskeleton independent: evidence from FRAP. *Plant Cell*, **14**, 1293-1309.
14. Gillespie, T., Boevink, P., Haupt, S., Roberts, A. G., Toth, R., Valentine, T., Chapman, S. and Oparka, K. J. (2002). Functional analysis of a DNA-shuffled movement protein reveals that microtubules are dispensable for cell-to-cell movement of tobacco mosaic virus. *Plant Cell* **14**, 1207-1222.
15. Roberts, A.G. and Oparka, K.J. (2003). Plasmodesmata and the control of symplastic transport. *Plant Cell & Environment* **26**, 103-124. (Invited Review)
16. Wright, K.M., Roberts, A.G., Martens, H.J., Sauer, N. and Oparka, K.J. (2003). Structural and functional vein maturation in developing tobacco leaves in relation to *AtSUC2* promoter activity. *Plant Physiology* **131**, 1555-1565.
17. Faivre-Rampant, O., Bryan, G. J., Roberts, A. G., Milbourne, D. and Viola, R. and Taylor, M. A. (2004). Regulated expression of a novel TCP domain transcription factor indicates an involvement in the control of meristem activation processes in *Solanum tuberosum*. *Journal of Experimental Botany* **55**, 951-953.
18. El-Amrani. A., Barakate, A., Askari, B.M., Li, X., Roberts, A.G., Ryan, M.D. and Halpin, C. (2004) Coordinate expression and independent subcellular targeting of multiple proteins from a single transgene. *Plant Physiology* **135**, 16-24.
19. Haupt, S., Cowan, G.H., Ziegler, A., Roberts, A.G., Kotzer, A., Oparka, K.J. and Torrance' L. (2005). Two plant-viral movement proteins traffic in the endocytic recycling pathway. *Plant Cell*, **17**, 164-181.
20. Chapman, S., Oparka, K.J. & Roberts, A.G. (2005). New tools for *in vivo* fluorescence tagging. *Current Opinion in Plant Biology* **8**, 565-573.
21. Martens, H.J., Roberts, A.G., Oparka, K.J. & Schulz, A.. (2006). Quantification of plasmodesmatal ER coupling between sieve elements and companion cells using fluorescence redistribution after photobleaching (FRAP). *Plant Physiology* **142**, 471-480.
22. Wright, K.M., Chapman, S. & Roberts, A.G. (2007). Targeting of TMV Movement Protein to Plasmodesmata Requires the Actin/ER Network; Evidence from FRAP. *Plant Signaling & Behaviour*, **2**, 179-180.
23. Wright, K.M., Wood, N.T., Roberts, A.G., Chapman, S., Boevink, P., Mackenzie, K. & Oparka, K.J. (2007). Targeting of TMV movement protein to plasmodesmata requires the actin/ER network: Evidence from FRAP. *Traffic* **8**, 21-31.
24. Viola, R., Pelloux, J., van der Ploeg, A., Gillespie, T., Marquis, N., Roberts, A.G. and Hancock, R.D. (2007) Symplastic connection is required for bud outgrowth following dormancy in potato (*Solanum tuberosum* L.) tubers. *Plant Cell and Environment* **30**, 973-83.
25. Hancock, R.D., Roberts, A.G. & Viola, R. (2008). A role for symplastic gating in the control of the potato tuber life cycle. *Plant Signaling & Behaviour*, **3**, 1-3.

BOOK CHAPTERS

1. Oparka, K. J., Roberts, A. G. and Santa Cruz, S. (1998). Use of GFP-tagged viruses in plasmodesmal research. In *Plasmodesmata. Structure, Function, Role in Cell Communication*. A. J. E. van Bel and W. J. P. van Kesteren, (Eds.), pp. 85-99. Springer, Berlin.
2. Roberts, A.G. (2004). Plasmodesmal structure and development. In: Oparka, K.J. (ed.). *Plasmodesmata*. Blackwell Publishing, Oxford, 1-32.

PUBLISHED ABSTRACTS.

1. Roberts, A.G., Young, I.M., Griffiths, B.S. and Caul, S. (1993). Growth of a ciliate protozoan in model ballotini systems of different particle sizes. International Society of Soil Science, Beyond the Biomass Conference, Wye College, Kent, UK.
2. Roberts, A.G., Santa Cruz, S. and Oparka, K.J. (1995). Studies of plant virus movement using GFP. 5th International Botanical Microscopy Conference, Oxford Brookes University, Oxford, UK.
3. Santa Cruz, S., Chapman, S. and Roberts, A. (1995). Green fluorescent protein as a marker for intercellular virus movement in plants. Abstracts of the Annual SEB Meeting, St. Andrews, UK, in Journal of Experimental Botany, **46**, Supplement p60.
4. Roberts, A.G., Santa Cruz, S. and Oparka, K.J. (1995). Imaging the cell-cell transport of viruses using green fluorescent protein (GFP). Abstracts of the 23rd Scottish Microscopy Symposium, Edinburgh, UK, p18.
5. Roberts, A.G., Santa Cruz, S. and Oparka, K.J. (1995). Imaging the cell-cell transport of viruses using green fluorescent protein (GFP). Abstracts of the 5th International Conference on the Transport of Photoassimilates, Canterbury, UK.
6. Oparka, K.J., Wright, K.M., Prior, D.A.M., Roberts, A.G. and Santa Cruz, S. (1995). Imaging the cell-cell movement of solutes and viruses in intact systems. Abstracts of the 5th International Conference on the Transport of Photoassimilates, Canterbury, UK.
7. Roberts, A.G., Santa Cruz, S. and Oparka, K.J. (1996). Imaging the transport of potato virus X in whole plants using green fluorescent protein (GFP). Abstract of MICRO '96 in Proceedings of the Royal Microscopical Society, **31**, p124.
8. Roberts, A.G., Boevink, P., Prior, D.A.M., Santa Cruz, S. and Oparka, K.J. (1996). PVX and GFP: a powerful combination for *in vivo* imaging of viral and cellular processes. Abstracts of the 24th Scottish Microscopy Symposium, Aberdeen, UK, p10.
9. Roberts, A.G., Santa Cruz, S. and Oparka, K.J. (1996). Imaging the transport of potato virus X in whole plants using green fluorescent protein (GFP). Abstracts of the Third International Workshop on Basic and Applied Research in Plasmodesmal Biology, Zichron Yakov, Israel.
10. Oparka, K.J., Roberts, A.G., Prior, D.A.M. and Santa Cruz, S. (1996). Non-invasive imaging of cell-cell communication patterns in source and sink tissues – viruses carry the torch. Abstracts of the Third International Workshop on Basic and Applied Research in Plasmodesmal Biology, Zichron Yakov, Israel.
11. Roberts, A. G. (1997). Green fluorescent protein as a marker for plant virus movement studies. Abstracts of the 25th Scottish Microscopy Symposium, Dunblane, UK, p5.
12. Santa Cruz, S., Roberts, A.G., Wright, K.M., Duncan, G., Roberts, I.M., Prior, D.A.M. and Oparka, K.J. (1998). Unravelling the PVX cell-to-cell movement process. Abstracts of the Instituto Juan March Workshop on Plasmodesmata and the Transport of Plant Viruses and Plant Macromolecules, Madrid, Spain, p42.
13. Santa Cruz, S., Roberts, A.G. and Oparka, K.J. (1998). Fluorescence and electron microscopy in the study of viral pathogenesis. Abstracts Trinoculaire '98 des Microscopies, Strasburg-Illkirch, France. Published in: Biology of the Cell, 90, p263-264.
14. Oparka, K.J., Boevink, P., Roberts, A.G., Blackman, L., Palukaitis, P., MacFarlane, S. and Santa Cruz, S. (1998). The ins and outs of systemic virus transport. Abstracts of the Instituto Juan March Workshop on Plasmodesmata and the Transport of Plant Viruses and Plant Macromolecules, Madrid, Spain, p51.

15. Roberts, A. G., Santa Cruz, S., and Oparka, K. J. (1999). GFP as a marker for virus movement in whole plants. Abstracts of the International Botanical Microscopy Conference, St Andrews, UK.
16. Roberts, A. G., Boevink, P., Santa Cruz, S., Sauer, N., and Oparka, K. J. (1999). Plasmodesmata and the sink-source transition - new insights. Abstracts of the International Congress on Assimilate Transport and Partitioning, Newcastle, Australia, p121.
17. Boevink, P., Roberts, A. G., Brandizzi, F., Saint-Jore, C., Oparka, K. J., and Hawes, C. (1999). Golgi bodies track along the endoplasmic reticulum in plants. Abstracts of the BSCB Meeting, Bristol.
18. Boevink, P., Hawes, C., Roberts, A. G., and Oparka, K. J. (1999). Plant cells light the way. Abstracts of the New Frontiers in Science Exhibition, Royal Society, London.
19. Roberts, A. G., Boevink, P., Santa Cruz, S., Sauer, N., and Oparka, K. J. (2000). Functional dynamics of plasmodesmata in sink-source transition leaves. Abstracts of the 28th Scottish Microscopy Symposium, Edinburgh, UK, p6.
20. Roberts, A. G., Boevink, P., Santa Cruz, S., Sauer, N., and Oparka, K. J. (2000). Using GFP to study the plasmodesmatal size exclusion limit in sink and source tissues. Abstracts of the Annual SEB Meeting, Exeter, UK, in *Journal of Experimental Botany*, **51**, p18.
21. Roberts, A. G., Boevink, P., Santa Cruz, S., Sauer, N., and Oparka, K. J. (2000). A study of plasmodesmata during the sink-source transition: GFP labelling reveals dynamic changes in architecture and function. Abstracts of the ICHC, York, UK, p45.
22. Roberts, I. M., Boevink, P., Roberts, A. G., Sauer, N., Reichel, C., and Oparka, K. J. (2001). Dynamic changes in the frequency and architecture of plasmodesmata during the sink-source transition in tobacco leaves. Abstract for the 'Plasmodesma 2001' Meeting, Cape Town, South Africa, pg 6-8.
23. Gillespie, T., Haupt, S., Toth, R. L., Roberts, A. G., and Oparka, K. J. (2001). Elucidation of the improved functions of a DNA shuffled TMV movement protein. Abstract for the 'Plasmodesma 2001' Meeting, Cape Town, South Africa, pg 98-100.
24. Gillespie, T., Toth, R. L., Haupt, S., Boevink, P., Roberts, A. G., Chapman, S., and Oparka, K. J. (2001). A DNA-shuffled movement protein enhances transport of TMV by evasion of a host degradation pathway. Abstract for the 'Plasmodesma 2001' Meeting, Cape Town, South Africa, pg 38-40.
25. Boevink, P., Haupt, S., Toth, R. L., Roberts, A. G., and Oparka, K. J. (2001). Cell-cell movement of TMV in the absence of microtubules. Abstract for the 'Plasmodesma 2001' meeting, Cape Town, South Africa, pg 57.
26. Martens, H., Schulz, A., Roberts, A. G., and Oparka, K. J. (2001). ER-Targeted GFP, expressed under the SUC2 promotor, stays in companion cells of source and transport phloem. Abstract for the 'Plasmodesma 2001' Meeting, Cape Town, South Africa.
27. Roberts, I.M., Boevink, P., Roberts, A.G., Sauer, N., Reichel, C. and Oparka, K.J. (2001). Dynamic changes in the frequency and architecture of plasmodesmata during the sink-source transition in tobacco leaves. Abstracts of the 29th Scottish Microscopy Symposium, Glasgow, UK, p12.
28. Gillespie, T., Haupt, S., Toth, R., Roberts, A.G. and Oparka, K.J. (2001). Functional characterisation of a shuffled TMV movement protein. Abstracts of the 29th Scottish Microscopy Symposium, Glasgow, UK, p12.
29. Wright, K.M., Roberts, A.G., Martens, H.J., Sauer, N. and Oparka, K.J. (2003). Structural and functional vein maturation in developing tobacco leaves in relation to *AtSUC2* promoter activity. Abstracts of the 7th International Botanical Microscopy Conference, Lisbon, Portugal, p32.

30. Wright, K.M., Wood, N.T., Gillespie, T., Boevink, P., Haupt, S., Roberts, A.G. and Oparka, K.J. (2003). Intercellular viral movement protein targeting to plasmodesmata. Abstracts of the 7th International Botanical Microscopy Conference, Lisbon, Portugal, p62.
31. Roberts, A.G., Wright, K.M., Wood, N. T., Gillespie, T., Boevink, P., Haupt, S. and Oparka, K.J. (2003) Intercellular targeting of viral movement protein to plasmodesmata. Abstracts of the International Phloem Conference 2003, University of Bayreuth, Germany.
32. Wright, K.M., Roberts, A.G., Martens, H.J., Sauer, N. and Oparka, K.J. (2003) The influence of light on the sink-to-source transition. Abstracts of the International Phloem Conference 2003, University of Bayreuth, Germany.
33. Haupt, S., Cowan, G.H., Ziegler, A., Roberts, A.G. & Torrance, L. (2004). New insights into *Potato mop-top virus* movement. Abstracts of the Plant Virus Workshop, Society for General Microbiology 154th Meeting, Bath, UK.
34. Wright, K.M., Boevink, P., Wood, N.T., Roberts, A.G., MacKenzie, K.M. and Oparka, K.J. (2004). Towards a new model for TMV movement. Abstracts of the Plasmodesmata 2004 Conference, Asilomar, California, USA.
35. Cowan, G.H., Haupt, S., Ziegler, A., Roberts, A.G., Oparka, K.J. & Torrance, L. (2004). A plant virus hijacks the endocytic machinery. Abstracts of the Plasmodesmata 2004 Conference, Asilomar, California, USA.
36. Wright, K.M., Wood, N.T., Roberts, A.G., Boevink, P., Gillespie, T., MacKenzie, K.M. and Oparka, K.J. (2004). Plasmodesmal targeting of TMV movement protein utilises the ER/actin network. Abstracts of the Plasmodesmata 2004 Conference, Asilomar, California, USA.
37. Torrance, L., Haupt, S., Cowan, G.H., Ziegler, A., Roberts, A.G. & Oparka, K.J. (2004). Plant viral movement proteins utilise the endocytic recycling pathway. *2nd EPSO Conference (abstract)*, 10-14 October, 2004, Italy.
38. Roberts, A.G., Boevink, P., Calcutt, J., Chapman, S., Wright, K. M. and Oparka K.J. (2004). New fluorescent proteins light up plant intercellular communication. The visible cell; biosensors and bioreceptors session, SEB Plant Frontiers Meeting, Exeter, UK.
39. Roberts, A.G., Chapman, S., Medina-Escobar, N., Haupt, S., Pradel, K. and Oparka, K.J. (2004) New insights into the structure and function of plasmodesmata. Abstracts of "Le Phloeme dans tous ses états", French Society of Plant Physiologists Conference, Poitiers, France.
40. Torrance, L., Haupt, S., Cowan, G.H., Ziegler, A., Roberts, A.G. & Oparka, K.J. (2004). Plant viral movement proteins utilise the endocytic recycling pathway. *2nd EPSO Conference (abstract)*, 10-14 October, 2004, Italy.
41. Boevink, P, Chapman, S, Bell, K, Jackson, K, Wright, K, Latijnhouwers, M, Gillespie, T, Oparka, KJ, Roberts, AG. (2005). Investigating protein location, motion and function in living plant cells. *Biotechnology Havana*, Cuba, November 2005.
42. Haupt S, Wright K, Cowan G, Boevink P, Gillespie T, Zeigler A, Roberts AG, Chapman S, Oparka KJ and Torrance L. (2005). Plant Virus Proteins Traffic in the Endomembrane System. *Mini-Symposium on Improving the Plant Secretory System for Nutrition and Health*. Grasmere, UK, May 2005.
43. Cowan, G.H., Gillespie, T., Haupt, S., Ziegler, A., Roberts, A.G. & Torrance, L. (2006). *Potato mop-top virus* utilises the endocytic machinery and chloroplasts during replication and movement. *International Symposium on Applications of Plant Sciences in Emerging Scenario*, Faisalabad, Pakistan, 20-22 March 2006.

44. Haupt, S., Roberts, A.G., Cowan, G.H., Faulkner, C., Torrance, L. & Oparka, K. (2006). There and back again - PD targeting meets vesicle recycling. *Plasmodesmata 2006*, Pitlochry, Scotland, 30 July-3 August 2006.
45. Martens, H., Roberts, A.G., Oparka, K. & Schulz, A. (2006). Endomembrane coupling between sieve element and companion cell. *Plasmodesmata 2006*, Pitlochry, Scotland, 30 July-3 August 2006.
46. Roberts, A.G. (2006). Confocal microscopy at SCRI; Past, present and future. *International Symposium on Applications of Plant Sciences in Emerging Scenario*, Faisalabad, Pakistan, 20-22 March 2006.
47. Tilsner, J., Roberts, A.G. & Oparka, K. (2006). Using a crippled virus to screen for non-cell autonomous proteins. *Plasmodesmata 2006*, Pitlochry, 30 July-3 August 2006.

TECHNICAL REPORTS & BULLETINS

1. Roberts, A.G., Prior, D.A.M. and Smallcombe, A. (1996). Using GFP to study viral invasion and spread throughout plant tissues. *BioRad Application Note 17*, Bio-Rad Microscopy Division, Hemel Hempstead, UK.

SCRI ANNUAL REPORT ARTICLES

1. Oparka, K.J., Roberts, A.G., Boevink, P., Prior, D.A.M. and Santa Cruz, S. (1995). Exploiting the green fluorescent protein in plants – viruses carry the torch. In, *Scottish Crop Research Institute, Annual Report 1995*, pp78-82.
2. Santa Cruz, S., Boevink, P., Duncan, G., Roberts, A.G., Prior, D.A.M. and Oparka, K.J. (1998). Probing the virus long-distance transport pathway. In, *Scottish Crop Research Institute, Annual Report 1997/98*, pp114-117.
3. Roberts, A.G., Santa Cruz, S., Boevink, P., Roberts, I. M., Sauer, N., and Oparka, K. J. (1999). The sink-source transition in leaves – new insights. In, *Scottish Crop Research Institute, Annual Report 1998/99*, pp76-79.
4. Gillespie, T., Toth, R., Haupt, S., Boevink, P., Roberts, A.G., Chapman, S. and Oparka, K.J. (2001). A DNA-shuffled movement protein enhances virus transport by evasion of a host-mediated degradation pathway. In, *Scottish Crop Research Institute, Annual Report 2000/01*, pp107-111.
5. Wright, K.M., Roberts, A.G., Martens, H.J., Sauer, N. and Oparka, K.J. (2003). Phloem development and function probed with a companion-cell marker. In, *Scottish Crop Research Institute, Annual Report 2002/03*, pp118-121.
